

THE PRESENT VERY ISOLATED CON-
DITION OF THE MARKET.

1000

www.elsevier.com/locate/jmb

York, Pa., Aug. 25.—A frightful storm, verging on a cyclone, passed over a portion of Hellam township, this county, about six miles from York. Rain fell in torrents accompanied by hail and a terrific wind. Trees were prostrated and snapped off like pipe stems, buildings moved from their foundations and crops ruined. The fields were badly washed and roads rendered almost impassable.

Meanwhile more interest is taken in the importation of 500 American live lobsters than in foreign abuse or domestic policy.

They Didn't Fight

Recovery of the Wounded Aeronaut.

NEW YORK, Aug. 25.—Considerable excitement was caused at the People's theater in the Bowery by the burning of red fire in rehearsing the play of the "Work" which was to be produced. An alarm of fire was sent out to which a number of engines responded, but their assistance was not re-

quired.

THE EVENING BULLETIN

TUESDAY, AUGUST 25, 1888.

The Signal says that the wheat crop of Adams County, Ohio, though a light one is of excellent quality.

The Iron trade in the country is greatly improving—some mills running double time, and the indications for a general boom in business are very good.

The Treasury Department is said to have unloaded nearly half a million dollars worth of its subsidiary silver, beside the \$6,000,000 sold to the New York banks.

It is reported as the immediate sequel of the understanding arrived at by the steel mill owners at their late conference, that asking prices of steel rails were advanced, and that railroad men are also paying the higher prices—\$28 per ton at the mill.

Justice Stanley Matthews, of the Supreme Court, has decided a case in the Michigan Circuit, which establishes the validity of the patent of the spring-tooth harrow. This decision will render a great many people liable for damages for using that device without license.

It was announced a few days ago that the Hon. Benjamin F. Butler was about to come out with a strong indorsement of the Administration. By the way, did no one observe that about the same time that this announcement was made the President took to the woods?

The economy of living at New Village, N. Y., is illustrated in the experience of the Rev. Otis Holmes, now eighty-three years old, who receives \$300 a year for his services, but manages to live upon that and what he says he has saved from the same salary for the past eighteen years.

It was reported on 'Change at Cincinnati, Saturday, that the Standard Oil Co. had sold whisky at \$1.08, whereas the pool price is \$1.13. In consequence the Mill Creek Distilling Company, of Cincinnati, issued a brief circular announcing that they would sell at the \$1.06 rate until September first.

The Toronto Mail says: It is reported that the young women "rescued" in London are to emigrate to Canada. If they stay "rescued," well and good; but they had better give an earnest of their determination to remain rescued by quarantining for say half a century in some British town, before bearing down upon this offending Dominion.

A Washington correspondent who has investigated the subject says we may look for cholera, if at all, through Spanish channels, and our outpost of observation should be Havana. While there seems no occasion for alarm at this time there is every reason for extreme vigilance. The Secretary of State has instructed Consuls to notify the department by cable of any outbreak, and the information will be given at once to the Associated Press.

The good work of the Administration thus exhibited by the New York Mercury: "During the five months that have elapsed since March 4, Secretary Lamar has checked the land-grabbers and cattle kings; Secretary Manning has unearthed the scandalous frauds in the Coast Survey and has lopped off many useless expenditures; Secretary Whitney has shown how the government can compel the performance of its contractors; Secretary Endicott has corrected an old abuse by sending staff officers to their regiments; Secretary Bayard has reconstructed an inefficient consular service and Attorney-General (Lamar) has interpreted the law with out fear or favor. This is practical reform that the people understand and approve."

On November first a permanent exhibition of American productions will be opened in Rome, under the auspices of the Ministry of Agriculture, Industry and Commerce, and of the Consul General of the United States. A member of the Italian Parliament, Secretary to the New York Herald, has recommended the farmers of Italy to look to the United States for their machines and implements, and it appears from the evidences of an industrial awakening in that country that the exhibition may be patronized by American manufacturers with prospects of substantial results. It probably results that the exclusive commercial policy which is being steadily extended and strengthened among the Germanic nations, partially including Russia, but more particularly the German and Austrian Empires, may be viewed as a suggestion to the Latin nations of a defensive policy which may insure favorably to an extension of commercial intercourse with a powerful commercial nation like the United States, disconnected from all European complications or special affiliations, and the Kelley unpleasantness may possibly be abundantly rectified by measures like this to cultivate with Italy more intimate relations through commercial intercourse.

Two Children Killed.

OTTAWA, Aug. 25.—A fearful accident occurred on the line of the Canada & Atlantic railway about a mile and a quarter from the Elgin street station. Shortly before 8 o'clock a freight train was coming from the west, when on the curve just at the bridge, the engineer discovered four children on the structure. The bridge is not intended for the public and the engineer at once reversed his engine and stopped the train. The children were caught by the train and mangled to death. The driving wheel of the locomotive and several of the car wheels were marked with blood, hair, and fragments of skin, showing the dreadful mutilation which victims had suffered. So far it has been impossible to ascertain their identity.

The Current No More.

CHICAGO, Aug. 25.—The weekly literary publication known as the Current, and managed by Edgar & Ackerman, has ceased to exist. Mr. Ackerman sent Mr. Nesbitt, the manager of the office, to attend to some business, and when that gentleman returned he found Mr. Nesbitt absent and a letter on his desk instructing him to send out a circular to the papers of the suspension of the Current. The failure is attributed to the unwillingness of some moneyed friends to come to Mr. Ackerman's support at the right moment. Mr. Nesbitt said that he was tired of the work and had been and gone to some other city for financial assistance.

New York Republicans.

SARATOGA, N. Y., Aug. 25.—The Republican state committee will meet at Congress hall. Several prominent Republicans have already arrived and are quartered at the various hotels. Third Assistant Postmaster General H. D. Hagan is among the new arrivals. None of the committee have yet arrived, but all are expected very soon. Congress hall is in readiness and everything promises to go smoothly.

Tennessee Killing.

GALLATIN, Tenn., Aug. 25.—Arch Harper was killed near Gallatin by Wm. Moss. Harper had committed a heinous crime concerning Moss' sister and upon refusing a retraction had been attacked by the girl's father. The young Moss struck Harper from behind with a wagon spoke, inflicting injuries from which he died. The parties are wealthy and stand high.

Auto-motors Arrested in Monterey.

NEW ORLEANS, Aug. 25.—Deputy United States Marshal Parker has identified the man arrested in Monterey as Auto-motors, the defaulting sub-treasury redemption clerk. The deputy marshal telegraphed a demand from the President of the United States on the President of Mexico will be necessary before the prisoner can be extradited.

"Father" Allen Dead.

SPRINGFIELD, Mass., Aug. 25.—"Father" Allen, known to all Second Adventists for forty years as his attendance at their camp meetings, and to Methodists before that time, died at Chicago Falls, aged eighty-eight years. He leaves two sons and a daughter, all of whom suffer from mental derangement inherited from their mother.

SHORT SAYINGS.

The News of the Day Condensed for Handy Reference.

Chalk Moore dropped dead of heart disease at Richmond, Ind.

A son of Enos Lemley, of Mt. Ghazal, O., was badly bitten by a crocodile.

Charles Knauser, of Middletown, O., is reported mysteriously missing.

Senator Sherman will address the Republican party in Chicago, O., August 31.

Joseph Singer and Ben Carter, of Sidney, O., were injured by lightning shock.

Prof Goldsmith, of Youngstown, O., attempted suicide by shooting himself through the chest.

Dr. D. Smith, of Cleveland, O., was held in \$2,000 bond for producing an abortion.

Mrs. Clinton Raps, of Piermont, O., committed suicide by throwing herself into a well.

Col. A. S. Mariner, postmaster at Knoxville, Tenn., is under arrest for robbing the mails.

The Indiana division of the Commercial Travelers Protective association was organized at Indianapolis.

The destruction of the growth of the best tobacco districts in Pennsylvania has been caused by a hail storm.

Minnesota authorities have taken measures to prevent the spread of smallpox throughout the north-west.

Ripley county, Ind., is in a state of terror over the prevalence of a huge snake. Efforts are being made to capture the monster.

Respectable citizens of Youngstown, O., have filed suits for the recovery of money raised in a bucket-shop, run by Cleveland parties.

By the destruction of a grain warehouse at Alexandria, Mo., J. H. Miller, of Kansas, and Ann Mason, of Alexandria, lost \$10,000.

Slur Die, a driver in the Youngstown fire department, attempted suicide by taking a dose of opium pills. He had only been married a week.

Capt. Griffith, a St. Louis steamboatman, and his son Harold are sued for \$33,000 damages by Doris Fitzgerald, who alleges that the latter dragged and outraged her.

o'clock this morning. The market opened quiet, with Union Pacific, Western Union and St. Paul & Northern Pacific higher, while Louisiana, N. Y. & Erie, and Mississippi and St. Louis preferred a rise and Reading & Lake Shore and Louisville & Nashville were unchanged. There were declines of small fractions in the first few transactions.
